

Winter 2021

Dear friends of HumanCare Russia

We're sending snow photoes from Moscow, which Connie Meyer took in February 2019. She felt it was like a fairytale sight. It was so very quiet. But it's cold too. At this time it is around minus 16 degrees C/3,2 degrees F. It can get much colder. So good donations can warm up in an icy time.

Corona in Russia

The corona abounds in Russia. February 11th 15,038 new cases of coronavirus and 553 deaths were registered. So far a total of approx. 4 millions cases has been registered of which approx.. 3,5 millions has recovered and approx. 77,000 died. The numbers are constantly increasing. Vaccination has already begun at the end of November with the special Russian Sputnik V vaccine, which should have around 90% efficiency.

There are still many who are affected, also financially. This is also true of Father Pavel's congregation. And they do not have the financial aid packages that we have in Denmark. Our contact in Moscow, Irina Smirnova, writes: *"There are seriously ill patients who need financial help."* HumanCare Russia has sent a larger amount, which she will distribute to affected families with children. We say thank you to all of you who have helped make this donation possible. We would like to be able to send donations again in the spring/summer. And as soon as possible, we will visit the congregation. We bring donations and collected clothes. Father Pavel and Irina have been ill. They have been quarantined and had to order food via the Internet. But they have recovered and have been able to celebrate the Orthodox Christmas, which was January 7th..

Donations

Thank you for the great donations we have already received. They have been to wonderful benefit, joy, and help to families in need in Moscow.

HCR's account no. is
registration number 5958 account 2009516
HCR's iban account number is:
DK1659580002009516
Swift address / BIC code for payments from EU
/ SEPA countries "FAANDK21"

For payments from other countries, such as the United States, China or Australia, additional information about the Swift address is required and here "FAANDK21 via DANBDK22" must be used.

*The board of HumanCare Russia
wishes everyone
a wonderful and corona-free winter
and a beautiful spring*
